### Exercice 1 : Calcule avec la méthode de ton choix.

- a.  $589 + 501 =$  \_\_\_\_\_
- b.  $2\ 758 + 563 =$  \_\_\_\_\_
- c.  $474 + 8\ 765 + 89 =$  \_\_\_\_\_
- d.  $5\ 897 + 2\ 003 =$  \_\_\_\_\_

A place value chart for the addition  $589 + 501$ . The top row has two circles: a green one above the hundreds column and a red one above the tens column. The chart has four columns: hundreds, tens, units, and a blank column for carrying. The first number, 589, is represented by a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. The second number, 501, is represented by a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. A plus sign is to the left of the chart. A horizontal line is drawn below the units column. Below the line, there are four empty boxes for the result.

A place value chart for the addition  $2\ 758 + 563$ . The top row has three circles: a black one above the thousands column, a green one above the hundreds column, and a red one above the tens column. The chart has five columns: thousands, hundreds, tens, units, and a blank column for carrying. The first number, 2758, is represented by a black square in the thousands column, a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. The second number, 563, is represented by a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. A plus sign is to the left of the chart. A horizontal line is drawn below the units column. Below the line, there are five empty boxes for the result.

A place value chart for the addition  $474 + 8\ 765 + 89$ . The top row has three circles: a black one above the thousands column, a green one above the hundreds column, and a red one above the tens column. The chart has five columns: thousands, hundreds, tens, units, and a blank column for carrying. The first number, 474, is represented by a black square in the hundreds column, a green square in the tens column, and a blue square in the units column. The second number, 8765, is represented by a black square in the thousands column, a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. The third number, 89, is represented by a green square in the hundreds column and a red square in the tens column. A plus sign is to the left of the chart. A horizontal line is drawn below the units column. Below the line, there are five empty boxes for the result.

A place value chart for the addition  $5\ 897 + 2\ 003$ . The top row has three circles: a black one above the thousands column, a green one above the hundreds column, and a red one above the tens column. The chart has five columns: thousands, hundreds, tens, units, and a blank column for carrying. The first number, 5897, is represented by a black square in the thousands column, a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. The second number, 2003, is represented by a black square in the thousands column, a green square in the hundreds column, a red square in the tens column, and a blue square in the units column. A plus sign is to the left of the chart. A horizontal line is drawn below the units column. Below the line, there are five empty boxes for the result.

**Exercice 2 : Trouve les chiffres qui manquent dans les cases orange.**
